

## EdTech Leaders Online (ETLO) delivers capacity-building,

research-based online learning to state departments of education, school districts, virtual schools, colleges and universities and other educational organizations.

ETLO enables organizations to create standards-based online courses for teachers and students. Our programs are developed by leading experts in online learning, who work with you to provide high-quality content, training and support as you implement your own online program.

ETLO provides access to a national learning community of educators working to impact teacher content knowledge, pedagogy and student achievement through online learning.

## COURSES, PROGRAMS & SERVICES

EdTech Leaders Online offers programs, services and courses for **Online Professional Development** and **Virtual Course Programs for K-12 students**

### Online Instructor Training

**Facilitating and Implementing Online Professional Development** prepares educators to facilitate online workshops aligned to your organization's needs. Through facilitated online training, your participants learn to build an online learning community, meet the diverse needs of adult learners, facilitate meaningful discussions and use online course systems and Web 2.0 tools. ETLO provides ongoing support for your facilitators to implement a program of online workshops for your teachers and administrators.

**Instructing K-12 Students in Virtual Courses** prepares teachers to teach online or blended courses for students through a facilitated online course. Participants learn strategies to facilitate and personalize student learning in an online course, build student collaboration and discussion, foster higher order thinking, assess online coursework and use course management systems and Web 2.0 effectively.

**Advanced Online Instructor** provides ongoing professional development for experienced online instructors to deepen their online facilitation skills, incorporate new Web 2.0 tools, strengthen community and improve learning in their online courses.

*EdTech Leaders Online has been and continues to be a valuable source for developing the Los Angeles Unified School District's online instructors. The support we have received for both technical and content issues is outstanding.*

LAURIE YEN  
PROFESSIONAL DEVELOPMENT SPECIALIST  
EDUCATIONAL TECHNOLOGY  
LOS ANGELES UNIFIED SCHOOL DISTRICT

### Online Course Design

**Online Course Design** prepares teams of educators to design or adapt online courses for teachers, administrators or students. Through facilitated online training, participants learn to develop custom content, identify and incorporate multimedia resources, build effective discussions, create online assessments and use online design tools. ETLO provides ongoing support as your new courses are finalized and implemented within your organization.

### Custom Development & Consulting

EdTech Leaders Online provides custom online course design and planning services to develop or adapt your content to create online courses for your educators or students. Experienced ETLO online instructional designers and media experts work with your organization to develop online content aligned to your organization's learning needs.

*EDC is the first place we turn for high quality professional development for our online instructors. They bring the latest in research coupled with trainers who model best practice. Without EDC, we could not have built the vital professional learning community that forms the heart of our instructional program!*

CATHY CHEELY  
FORMER DIRECTOR, VIRTUAL VIRGINIA

#### CREDIT

ETLO courses and workshops qualify for CEUs. Antioch University also offers continuing education credits at the graduate level and a Certificate program in partnership with ETLO.

#### TECHNOLOGY

ETLO programs are available in a range of course management systems including Moodle, Blackboard, Desire2Learn and Epsilon, and can be exported to local compatible systems.
